LANG

Mr. Terry Lang was the Third Wasatch Co. Hospital Administrator from
1st July 1974 To 31 Dec 1983

©1972 The Genealogical Society of The Church of Jesus Christ of Latter-day Saints, Inc.

Deseret Book Company, Salt Lake City, Utah

Terry William Lange was born in Byron, Wyoming. Kathleen Stevenson Lange was born in Los Angeles, California. We met each other on a blind date in Salt Lake City. Kathleen, at that time, was attending B.Y.U. and Terry was working at St. Marks Hospital.

They were married in the Los Angeles Temple.

Their first child, Steven, was born in California. A second child, Christopher, was born in Escalon, California. At this time, Terry returned to College at Loma Linda, California, for a Masters Degree in Hospital Administration. Our third child, Amy, was born in San Gabriel, California.

We accepted a job at the Wasatch County Hospital in Heber City and moved to the beautiful Heber Valley in 1974. Douglas was born in the Heber Hospital making a family of three sons and one daughter. However, the Lange family was just recently blessed with another special spirit, Hillary, the long awaited sister for Amy.

Our family enjoys doing things together such as camping, hiking, traveling, and fishing.

Hi ya everybody! We're the Knights. Dick is the head of our home, or the "Boss" as our oldest son, Jared would say. Dick was born in Heber to George and Inazelle Knight. As he grew up he played Little League Baseball and spent his allowances paying for "accidents" that seemed to occure quite frequently. A few of his High School years were spent conning girls to carry his books to class while he tried to manover a pair of crutches and a cast on his leg. After graduation from Wasatch High School he attended Dixie College. Following his year at Dixie he filled a mission to Independence, Missouri. After his mission he went to B.Y.U. to study Business Management. While at B.Y.U. he found Robin and they were married April 30, 1976 in the Provo Temple. Since that time Dick has earned his Utah Contractors license and has built many local homes, including four for his own family. He has continued to be active and involved in many church callings as well as community projects. Among Dick's life time ambitions are: scuba diving in the Bahamas, and filling a full time mission with Robin.

Robin was born in Montpelier, Idaho to Robert H. and Marjorie Teichert. As well as attending school at Joaquin Elementary in Provo, she also attended school in Circleville, Utah. Horses in the backyard and leadership in the High School, and church callings kept her busy through graduation from Piute High School. Following graduation, Robin returned to B.Y.U. to study music and elementary education. At B.Y.U. Robin met and fell in love with her "Knight" in shining armor. She has participated in church and community services and will hopefully include more of the same plus a few other ambitions which include: riding a camel (in some foreign and exotic country-not Las Vegas) parachute jumping, and serving a mission with Dick.

Kristi was born in Heber and has been beautiful since the day she was born. She loves to sing, ride her bicycle, help mommy cook and read.

Jared is a natural leader and already governs the family in his own way. He likes to do stunts(Fall Guy) sing, ride his big wheel and help Daddy work.

Dace is our little Boss and quite a charmer at home. His interests include going (anywhere anytime), talking, running and singing.

Hospital Administrator Resigns Cites Conflict With Board Action

Wasatch County Hospital Receives \$10,000 Grant

The Wasatch County Hospital has been given approval to receive a state grant of \$10,000 for purchase of a new four-wheel drive ambulance. The grant is part of a statewide funding project by the Department of Health, Education and Welfare.

Funds totaling \$643,974 will be distributed to several communities in the state from the Department of Health, Education and Welfare to the Utah State Division of Health for improved emergency medical services.

The grant will provide training opportunities for 480 ambulance personnel from throughout the state, and training operations will also be made available for 20 paramedics and implementation of an Emergency Room Nurse Training Program to be conducted through the University College of Nurses.

Twenty-one cities will receive \$10,000 each toward the purchase of new ambulances. Heber City will receive these funds, as well as Park City, Provo, Orem and Salt Lake County. Other rural hospitals to receive ambulance funds are Spanish Fork, Springville, Nephi, Payson and Pleasant Grove.

Wasatch County Hospital Administrator Terry W. Lange noted that the new ambulance, which hopefully will be delivered in 60-90 days, will provide the hospital a greater ability to meet the emergency needs of the county.

He also revealed plans for an Emergency Medical Technician training program being organized for this area. It is hoped that the training programs will begin soon, with local physicians and medical specialists aiding in the teaching.

The grant funds are on a county match basis and the Wa-

satch County Commission has approved a \$6,000 outlay toward purchase of the ambulance. Estimated cost of the new ambulance will be \$16,000 or less, according to the administrator.

Other requirements which the county hospital must meet in order to receive the grant are that the ambulance must meet federal standards, mainly that it be mounted on a truck chassis

and that the ambulance contain life-saving equipment. Another requirement is that the hospital be staffed sufficiently by July 1, 1975 to provide two trained Emergency Medical Technicians on every ambulance run.

At present, Wasatch County Hospital has two trained emergency technicians, Mike Wright and Mr. Lange are both qualified as emergency technicians.

We all welcome the new administrator Terry W. Lange. Also the new officers of the Park Division Auxiliary for the year 1974-1975.

*Jean Montgomery
Historian from
Aug. 1973 to May
of 1974.*

Norman C. Davis, Wasatch County Hospital Administrator acknowledged in an inquiry this week that he had submitted his resignation to the hospital board and would be leaving about August 15th. He cited disillusionment with the hospital board as his reasons for leaving, charging the board with failure to control the medical staff sufficiently to provide first quality care. Mr. Davis joined the staff the first of this year.

The administrator revealed the reason he had given the board for leaving commenting, "I felt they (the board) had evaded a significant responsibility with regard to the control of the medical staff. As a governing board of a hospital, they are charged with the responsibility for the quality of care that is delivered in the community. My feeling is that they have not met that responsibility."

Mr. Davis declined to cite a particular example, but was apparently referring to the outcome of private hearings recently held by the hospital board. The executive sessions began on May 30th and continued for about two weeks ending with a formal private hearing.

Harold H. Smith, hospital board chairman and Wasatch County Commissioner, admitted that the board had received Mr. Davis' resignation, but no formal action had been taken on accepting the resignation. They are, however, interviewing new applicants for the position. He stressed that the board had not requested his resignation and admitted that they were pleased with the many new innovations which had come to the hospital under Mr. Davis' tenure.

Commissioner Smith also acknowledged that the board had held a series of private hearings over a long period of time, adding that a decision on disciplinary action was made by the board, only after long hours of deliberation. "The well-being and safety of the community was utmost in the minds of the board

members, and on hours of deliberation board make what was a sound decision, thoughtfully.

The hospital has changes during the months. Special added to the staff Respiratory Therapist, Respiratory Technology Emergency Room was also recently the ambulance a life-saving equipment purchased for the ambulance.

Several thousand worth of technical has been added to including a heart utilized in surgery, atory department, photometer, a and a fibrometer, assesses the blood of a patient. The Department also important pieces used in evaluating breathing problem.

The hospital was filed as a Medical Care Facility and two new physicians added to the staff.

Center awards administrator

A Utah Valley Regional Medical Center administrator was presented the Community Service Award by Provo's senior citizens.

Terry Lange, assistant administrator and director of reimbursement and outreach coordi-

nator for the hospital, was honored for his service to the Eldred Center and the elderly residents of Provo.

The presentation was made as part of the Health Information Day for Older Adults, an all-day conference on health last week at the Eldred Center.

Terry William Lange

Terry Lange

HEBER CITY — Terry William Lange has announced intention to gain a seat on the Heber City Council.

"It has long been my desire to serve the people of Heber City again," said Lange. "For 10 years I served as the administrator of Wasatch County Hospital. My family and I have lived in and loved this community now for over 17 years."

Lange is concerned with the seeming lack of a long range plan for the city. "Without a strong tax base we must learn to be as efficient as we can be in city-county government," said Lange.

The citizens of Heber City have a right to be heard and their concerns answered, said Lange. "I will do my best to work for and solve the problems of the people of this community."
